

PROFFESIONAL SUMMARY

- Results-driven **RPA & SAP BTP Developer** with 3.8+ years of experience in automating complex workflows and designing intuitive low-code applications. Certified in UiPath, Robocorp, and ABBYY, with advanced expertise in SAP Build Apps, SBPA, and CAPM for building scalable enterprise solutions.

EXPERIENCE HIGHLIGHTS

- Developed SAP Build Apps dashboards to track automation ROI in real time, including metrics like prospects generated (500+ monthly), cost savings (20% reduction), and process efficiency gains, enabling data-driven decision-making for stakeholders.
- Integrated **SAP Build Apps** with **SBPA** and **S/4HANA**, centralizing data flows and providing stakeholders with self-service analytics to monitor automation performance and campaign outcomes.
- Successfully integrated APIs with UiPath to enhance automation capabilities and facilitate seamless data exchange between different systems.
- Extensive experience in **VBA (Macro)** development, **SQL Server**, and writing **SQL queries**.
- Applied automation solutions to **UiPath Apps** and **SAP** environments.

ACADEMIC CREDENTIALS

- Bachelor of Technology, Computer Science and Engineering I** 2021
Lovely Professional University, Jalandhar

EMPLOYMENT SUMMARY

- RPA Developer Deloitte(C2H)** 04-2023 to Present
Network City Innovation Limited
 - Designed and developed **SAP Build Apps** dashboard to track process utilization and ROI for the LAC Profiling Automation. The app provided real-time insights into total prospects generated, automation success rates, and cost savings, enabling stakeholders to measure project impact.
 - Enhanced SAP BTP solutions by integrating SBPA with **SAP S/4HANA** for streamlined workflows.
 - Created user-friendly interfaces in SAP Build Apps for prospect tracking, allowing clients to filter data by region, date, and campaign type, improving decision-making efficiency by 30% for SF HomeOffice Delimitation.
 - Led **SAP Build Apps** and **CAPM** POC development to explore low-code solutions for enterprise automation.
- Software Developer** 03-2023 to 04-2024
SISL Infotech
 - Developed and implemented **7+** automated solutions using UiPath to streamline for Hindware Home Innovation Limited.
 - Worked closely with business users in identifying and defining the requirements and analyzing them.
 - Implemented multi bot architecture concept for optimized automation.
 - Developed **UiPath apps** to run the **SAP Automation** projects.
 - Integrate **Open AI** with UiPath for **HR-Resume filter** and **Speech to text** use-case.
- Trainee Programmer** 08-2021 to 02-2023
Yash Technologies
 - Spearheaded the design and development of the **Frozen Release** Process using **Robocorp** tool for Baxter RPA tools to optimize automation efficiency.
 - Worked with test teams during **UAT phases** to fix assigned bugs.
 - Play a pivotal role in all phases including requirement gathering, analysis, Development and **RPA Testing**, leveraging expertise in **UiPath Document understanding**, **Abbyy** and Robocorp RPA tools.

TECHNICAL SKILLS

- Technology:** RPA & SAP BTP
- Databases:** MySQL
- Development tools:** UiPath, SBPA, Visual Code Studio, Postman
- Programming Language:** JavaScript, Python
