PROFFESIONAL SUMMARY

- Dedicated and skilled RPA Developer with **3.5+** years of hands-on experience in **UiPath, Robocorp** and **SBPA**. Holds RPA certifications for Robocorp, Abbyy and UiPath, demonstrating proficiency in process analysis, design, and implementation. Adept at handling business and technical requirements, excelling in problem-solving, and conducting thorough system testing, including UAT and bug fixes.

EXPERIENCE HIGHLIGHTS

- Successfully deployed and maintained Bots using **Orchestrator** and **Control Room**.
- Worked on **SAP Build Process Automation** for SAP Germany.
- Proficient in **RE-Framework** and experienced in automation using **Excel**, **Web**, **Image, OCR,** and **PDF**.
- Successfully integrated APIs with UiPath to enhance automation capabilities and facilitate seamless data exchange between different systems.
- Contributed to the determination of **RPA best practices**, suggesting improvements to current quality processes, standards, and practices.
- Extensive experience in **VBA** (Macro) development, **SQL Server**, and writing **SQL queries**.
- Applied automation solutions to **UiPath Apps** and **SAP** environments.

ACADEMIC CREDENTIALS

- **Bachelor of Technology, Computer Science and Engineering** l   2021
  Lovely Professional University, Jalandhar

EMPLOYMENT SUMMARY

- **RPA Developer Deloitte(C2H)**
  Network City Innovation Limited   04-2023 to Present
    - Prepare **PDD, SDD** and **TCD** documents, ensuring clear project documentation.
    - Worked on API Implementation, **Postman**, and automated **SF Home office Delimitation** through **SBPA** tool.
    - Successfully executed **LAC Profiling Automation** by integrating platforms like **Outreach** and **ZoomInfo** with API-driven automation solutions using SBPA. This streamlined marketing data consolidation into a centralized location, significantly reducing manual effort.
    - Enhanced knowledge and built Proof of Concepts (POCs) on SAP Build Apps and CAPM to explore innovative solutions.

- **Software Developer**
  SISL Infotech   03-2023 to 04-2024
    - Developed and implemented **7+** automated solutions using UiPath to streamline for Hindware Home Innovation Limited.
    - Worked closely with business users in identifying and defining the requirements and analyzing them.
    - Implemented multi bot architecture concept for optimized automation**.**
    - Developed **UiPath apps** to run the **SAP Automation** projects.
    - Integrate **Open AI** with UiPath for **HR-Resume filter** and **Speech to text** use-case.

- **Trainee Programmer**
  Yash Technologies   08-2021 to 02-2023
    - Spearheaded the design and development of the **Frozen Release** Process using **Robocorp** tool for Baxter RPA tools to optimize automation efficiency.
    - Worked with test teams during **UAT phases** to fix assigned bugs.
    - Play a pivotal role in all phases including requirement gathering, analysis, Development and **RPA Testing**, leveraging expertise in **UiPath Document understanding**, **Abbyy** and Robocorp RPA tools.

TECHNICAL SKILLS

- **Technology:** RPA
- **Databases:** MySQL   • **Visualization tools**: UiPath, SBPA, Visual Code Studio,Postman
- **Programming Language:** JavaScript, Python
